INTERNATIONAL JOURNAL OF ADVANCED ENGINEERING (IJAE)

Vol. 04, No. 01

Editorial

The International Journal of Advanced Engineering (IJAE) is a reputable, peer-reviewed, and open access international journal published semi-annually by the Information & Communication Technology Advanced Engineering Society (ICT-AES).

The current issue of IJAE (Vol. 04, No. 01) comprises 8 articles that showcase ongoing research and development in various advanced areas such as AI applications to combat COVID19 pendaminc, sign and speech interchanger, AI based metal matrix composite, monitoring human body in video surveillance, activated carbon, computer numerical control machine, integrated emergency communication and resoponse system and convolution neuron network.

We are committed to ensuring fast publication while upholding the quality of articles. Our aim is to notify all authors of acceptance or rejection results within 3 months of article submission. We encourage you to submit your new articles to our journal for swift and high-quality publication at no cost.

We extend our gratitude to all our authors, reviewers, readers, and editorial board members for their valuable contributions to the publication of this journal.

Editor-in-Chief
