INTERNATIONAL JOURNAL OF ADVANCED ENGINEERING (IJAE)

Vol. 04, No. 02

Editorial

The International Journal of Advanced Engineering (IJAE) is a reputable, peer-reviewed, and open access international journal published semi-annually by the Information & Communication Technology Advanced Engineering Society (ICT-AES).

The current issue of IJAE (Vol. 04, No. 02) comprises 11 articles that showcase ongoing research and development in various advanced areas such as tensile deformation and hardening behaviour, activated carbon, adsorption of di-nitrogen, web based digital display board, FLUKA simulation, image captioning, 6 GHz band microwave radio link, long term temperature forcasting, design of handbag system, and fine tuing of ResNet pre-trend model.

We are committed to ensuring fast publication while upholding the quality of articles. Our aim is to notify all authors of acceptance or rejection results within 3 months of article submission. We encourage you to submit your new articles to our journal for swift and high-quality publication at no cost.

We extend our gratitude to all our authors, reviewers, readers, and editorial board members for their valuable contributions to the publication of this journal.

Editor-in-Chief

Dr. Bhanu Shrestha
