INTERNATIONAL JOURNAL OF ADVANCED ENGINEERING (IJAE)

Vol. 05, No. 01

Editorial

International Journal of Advanced Engineering (IJAE) is an authoritative, peer-reviewed and open access half-yearly international journal published by Information & Communication Technology Advanced Engineering Society (ICT-AES).

The current issue of the IJAE (Vol. 05, No. 01) contains 16 articles. These articles are based on ongoing research and development in the broad and advanced area of biochemistry, GAN, energy management system, emotion recognition, a deep Q-networks, face recognition, block chain, web services, person re-identification, sentiment analysis model, and electronic attack techniques.

We always committed for the fast publication maintaining the quality of articles. At least we will attempt to notify all the authors within four weeks about acceptance or rejection result of the submitted articles. Therefore, we would like to encourage you to submit your new articles to this journal for the fast and quality publication in free of cost.

We would like to thank all of our authors, reviewers, readers and editorial board members for their contribution for publication of this journal.

Editor-in-Chief
