INTERNATIONAL JOURNAL OF ADVANCED ENGINEERING (IJAE)

Vol. 05, No. 02

Editorial

International Journal of Advanced Engineering (IJAE) is an authoritative, peer-reviewed and open access half-yearly international journal published by Information & Communication Technology Advanced Engineering Society (ICT-AES).

The current issue of the IJAE (Vol. 05, No. 02) contains 6 articles. These articles are based on ongoing research and development in the broad and advanced area of adsorption isotherms, quality control of ready-mixed concrete, outcome based education (OBE), map generative adversarial networks (MapGAN), performance analysis and optimization of boiler efficiency, and artificial intelligence.

We always committed for the fast publication maintaining the quality of articles. At least we will attempt to notify all the authors within 3 months about acceptance or rejection result of the submitted articles. Therefore, we would like to encourage you to submit your new articles to this journal for the fast and quality publication in free of cost.

We would like to thank all of our authors, reviewers, readers and editorial board members for their contribution for publication of this journal.

Editor-in-Chief
